GRAND NEW POTATO, DUKE OF YORK

Has during the past season produced
16 Tons an acre of clean handsome tubers.

DUKE OF YORK. Showing habit of growth.

We have much pleasure and confidence in introducing our superb New White Kidney Potato, **DUKE OF YORK**, which we feel sure will at once be placed in the front rank as a really first-class variety.

DUKE OF YORK originated from a cross between Early Primrose and King Kidney, and first attracted attention by its handsome appearance, and wonderful productiveness, in which respects (for a potato of such fine qualities) it far out-rivals any of the best kinds now in cultivation, having yielded at our Seed Farm, during the past season, Sixteen Tons an acre of handsome, marketable tubers, with but very few small, and an entire absence of disease.

In habit of growth it is very compact, the haulm being only a foot high; the leaves are smooth, and of a rich glossy green colour, whilst the tubers cluster compactly around the stem, and are very easy to raise.

The tubers are large, oval, smooth; very handsome and distinct in appearance; the eyes are few and quite even with the surface, ensuring the minimum of waste; the flesh is very fine grained, dry and mealy, when cooked, and of the most excellent flavour.

Its earliness, combined with its many fine qualities, will make it an especial favourite, and greatly increase its value as a market Potato, as it may be lifted with such varieties as Early Rose, and most of the Ash-leaved sorts, and, planted early, will, in ordinary seasons, finish its growth before the disease makes its appearance.

Price, per lb. 6d., 7 lb. 2s. 6d., 14 lb. 4s. 6d.

NEW AND SELECT GARDEN SEEDS FOR 1893.

New Hybrid Cucumber—Daniels' Reliable.

This magnificent variety is a cross between Daniels' Duke of Edinburgh, and Tender and True, combining the extra fine qualities of each. The plants are strong and robust growers, and extraordinarily prolific bearers, two and three fruit twenty to thirty inches long at a joint, and are very symmetrical and handsome. For exhibition and market work it is unsurpassed.

Price in sealed packets 1s. 6d. and 2s. 6d. each.

Runner Bean—Titan (new).

No other Scarlet Runner approaches this in appearance, size, and productiveness; the pods, which are broad, straight, and handsome, are produced in clusters, and are very fleshy and almost stringless. This variety is very hardy, and most useful for exhibition purposes.

In sealed packets 1s. 6d.

New Melon—Ely's Seedling.

Certificate of merit, Royal Horticultural Society. A green fleshed variety, rather large and oval, skin deep green and finely netted, flesh bright green, firm, and of most delicious flavour.

Per packet 1s. 6d.

New Rod Celery—Hatch's Conqueror.

An exceedingly fine variety; grows to a good size, heads very solid and crisp, and of a fine nutty flavour. It has been exhibited with great success during the past two years, and will be found the best Red Celery for market purposes.

Per packet 1s.

New Japanese Climbing Cucumber.

This new Cucumber is said to be a very useful variety, and succeeds well for outdoor cultivation, being quite as hardy as the Ridge varieties. The plant is a very vigorous and free grower, and can be grown either on poles or trellis work.

Per packet 1s.

Broccoli—Nutting's Snow White.

A magnificent variety. Ready for use in April and May. Of compact growth; is closely protected, and remarkable for its snow-white colour.

Per packet 1s.

Onion—Daniels' New Golden Globe.

An excellent variety of true globular shape, skin bright golden-yellow; excellent keeper and good cropper.

Per packet 1s.; per oz. 2s. 6d.

Tomato—Ponderosa.

A new variety from America. Is one of the largest Tomatoes ever introduced. The fruit are handsome, smooth, and very solid; it is a free setter, and will be found an excellent variety for exhibition purposes.

Per packet 1s.

Tomato—Terra Cotta.

This unique variety is very distinct as regards colour, form, skin, &c. The colour is pure terra-cotta. The skin is lustreless and slightly downy, like that of the Peach. The flesh is very solid and of good flavour, particularly to those who prefer raw Tomatoes.

Per packet 1s.

Turnip—Daniels' Golden Gem.

A new and distinct variety. Top small and neat, with medium-sized handsome root; in shape it is round and flattish, with very fine tap-root. The skin and flesh are of a rich golden-yellow, and of excellent quality and flavour.

Per packet 6d.; per oz. 1s. 6d.

Turnip—New Early Scarlet.

This is quite distinct; in shape, round and flat; the colour is a rich glowing scarlet; top small and neat; flesh white and of excellent flavour.

Per packet 4d.; per oz. 1s.

CONTINUITY LETTUCE.

"I have great pleasure in testifying to the durability of your **Continuity Lettuce**, it was the only one of many sorts that did not run to seed. It is one of the best Lettuces grown."—**Mr. A. Mc'LAREN**, Gardener to His Grace The Duke of Fife.

CONTINUITY LETTUCE CUT OPEN. (From a Photograph.)

Price, 6d. per pkt.; 1s. 6d. per oz.

"I sowed your **Continuity Lettuce** on May 9th in a long row, when up we transplanted from it, and have been cutting from these plantations up till far into September, and not one run to seed, which I consider is a great boon to a gardener, where a salad is asked for every day during the summer, and I have no fear in saying it will be universally grown when better known."—**Mr. C. FLACK**, Gardener to The Most Noble the Marquis of Cholmondeley.

ONION.

		s.	d.

We enjoy a very high reputation for the superior excellence of our strains of choice Florists' and other Flower Seeds, our retail trade in this department being probably the most extensive in the British Isles.

STOCK—WHITE PERFECTION.

We would especially draw the attention of Amateurs and others to our very fine strains of Asters, Stocks, Phloxes, Balsams, Anriculas, Carnations, Calceolarias, Cinerarias, Pansies, Primulas, Zinnias, &c., which have been awarded numerous first prizes during the past year, and which we can recommend as being highly superior and unrivalled for exhibition or decorative purposes.

NEW ASTER, DANIELS' DWARF PERFECTION.

A QUITE new and superb strain of beautiful varieties that will become highly popular. The plants grow only about eight or ten inches high, with stiff, upright stems and branches, and form handsome circular bushes. The flowers are of immense size, perfectly double, beautifully imbricated, and of the most splendid form. This will be found a grand strain for bedding out, for ordinary garden decoration, or for exhibition.

OPINIONS FROM SOME EMINENT GARDENERS.

Mr. OWEN THOMAS, Gardener to **H.M. THE QUEEN**, writes:—

"**Aster, Daniels' Dwarf Perfection** is a robust dwarf variety, very free-flowering, and partakes of the habit of a good selection of *Victoria*."

Mr. McKELLAR, Gardener to **H.R.H. THE PRINCE OF WALES**, says:—

"It is the best **Aster** he has ever seen: too much cannot be said in its praise."

From **Mr. E. BURRELL**, Gardener to **H.R.H. THE DUCHESS OF ALBANY**.

"Your **Dwarf Perfection Aster** is certainly a decided acquisition, a fine type of Bedding *Aster*."

From **Mr. H. DUNKIN**, Gardener to the Right Hon. **THE EARL OF WARWICK**.

"Your New **Dwarf Perfection Aster** is an introduction of sterling merit. I can confidently recommend this fine strain to all lovers of *Asters*."

From **Mr. E. BUNBURY**, Gardener to His Grace **THE DUKE OF NORFOLK**.

"I am very pleased with your **Dwarf Perfection Asters**, the flowers are of good shape and substance, and the colours excellent."

From **Mr. POPE**, Gardener to the Right Hon. **THE EARL OF CARNARVON**.

"I have been very much pleased with the **Daniels' Dwarf Perfection Aster**, I shall certainly make a note of it for another season."

From **Mr. HORTON**, Gardener to His Grace **THE DUKE OF PORTLAND**.

"I consider them grand, in fact the best **Asters** I have grown this season. I shall grow them extensively another year."

From **Mr. ENGLISH**, Gardener to the Right Hon. **LORD BELPER**.

"I am very much pleased with your **Daniels' Dwarf Perfection Asters**, they have been very much admired for their dwarf habit and size of flowers."

From **Mr. J. KIPPLING**, Gardener to the Right Hon. **THE EARL OF LYTTON**.

"I think very highly of **Daniels' Dwarf Perfection Asters**. Their dwarf and free branching habit makes them very suitable for filling small beds, or forming borders to large ones in bedding arrangements."

From **Mr. A. HENDERSON**, Gardener to the Right Hon. **EARL MANVERS**.

"I must say your **Dwarf Perfection Aster** is the best strain I have ever seen."

DANIELS' SUPERB PRIZE AND OTHER ASTERS.

From Mr. P. BLAIR, Gardener
to His Grace THE DUKE OF
SUTHERLAND.

"The Asters, Daniels' Dwarf
Perfection, are very fine indeed,
and a very nice mixture of varieties,
of fine form; would be most desirable
for mixed beds for cutting."

From Mr. JAMES A. BENT,
Gardener to His Grace THE
DUKE OF HAMILTON.
Oct. 10th.
"I can say your Dwarf Per-
fection Aster is true to name.
It is very dwarf, the flowers are good,
and the colours are very bright."

FLORAL NOVELTIES for SPRING 1893.

ASTER, COMET, PURE WHITE

Per packet 1s. 6d.

CALENDULA OFFICINALIS GRANDIFLORA SULPHUREA, fl. pl.

Per packet 1s. 6d.

COSMOS BIPINNATUS GRANDIFLOR.

ALBUS

Per packet 1s.; smaller packet 6d.

SESBANIA GRANDIFLORA

Per packet 2s. 6d.

INULA ENSIFOLIA

Per packet 1s. 6d.

PAPAYER NUDICAULE COCCINEUM,
fl. pl.

Per packet 1s. 6d.

HUMULUS JAPONICUS VARIEGATUS

(Variegated Japanese Hop) Per packet 1s.

VERBASCUM PANNOSUM

Per packet 1s. 6d.

HEUCHERA SANGUINEA

Per packet 1s.

GODETIA, LADY HASTINGS

Per packet 1s. 6d.

NEW & CHOICE PLANTS, &c.

CALLA ÆTHIOPICA—LITTLE GEM

Strong Young Plants each 1s. 6d., per doz. 15s.

Strong Flowering Plants each 2s. 6d. and 3s. 6d.

CANNAS—CROZY'S NEW HYBRIDS

3 for 2s. 6d., per doz. 9s.

HYPERICUM MOSERIANUM

Each 1s. 6d.

BOUVARDIA "PURITY"

Each 1s. 6d.

NEW SINGLE DAHLIA, 'MARGUERITE'

Price 1s. each; 3 for 2s. 6d.

NEW JAPANESE CHRYSANTHEMUM—
BEAUTY OF EXMOUTH

Strong Plants in March, each 7s. 6d.

NEW STRAWBERRY—LAXTON'S

SCARLET QUEEN Per 100, 30s.; per doz. 4s.

For full particulars see our Illustrated Guide for 1893.

DANIELS' GENERAL LIST OF FLOWER SEEDS.

ESCHSCHOLTZIA CROCEA.

From **Mr. H. REDDING, Jun.**, Astwood Bank.

Jan. 21st.

"I grew the finest **Marigolds** I have ever seen from your Seed. I took First Prize at Redditch for **French**, and First for **African**. At Astwood Bank I took First Prize for **French** and **African**, three blooms of each, which speaks well for the quality of your Seed."

From **Mr. T. HOWIESON**, Granville, New South Wales.

Dec. 9th.

"One of our members has taken First Prize here for **Pansies** grown in pots from Seed supplied by your firm."

From **C. CLAY, Esq.**, Manor House, Fovant.

Aug. 9th.

"One of the **Begonias** I had of you is five inches across, and magnificent. I must say you always send me good stuff."

From **The Rev. J. WILKINSON**, Rodmersham Vicarage.

Oct. 16th.

"The **Fuchsias** you sent me in May, and the **Dahlias** as well, have flowered remarkably well."

From **Miss BRODIE**, Wareham.

Jan. 14th.

"The **Ornamental Trees** sent last December have given great satisfaction."

From **Mr. FREDERICK TAPP**, Thornton Heath.

Jan. 27th.

"The **Roses** you sent me in the early part of last year did exceedingly well."

From Rev. P. PAGE, Brinsley Vicarage, Notts.

Mar. 26th.

"The Myrobella for hedges, which I had from you two years ago, has proved a very satisfactory plant for the purpose, it is all what you say."

BLOSSOM AND FRUIT.

Oct. 1891.
From General HANKIN, Clive Dale, Steyning.
"The Extra Strong Myrobella you sent me last season did well."

A GRAND FENCING PLANT.

MYROBELLA OR CHERRY PLUM

(*Prunus myrobalana*).

This was introduced some few years ago by the late Mr. Ewing of the Eaton Nurseries, and has undoubtedly proved itself to be the very best Fencing Plant ever grown. For rapidity of growth it is unrivalled, and, under fair conditions, will make a capital fence in three or four years from planting. It also grows vigorously in the poorest soils, and is first-class for planting in exposed situations or by the sea coast. It is quite hardy and will stand the severest frosts without injury.

The Myrobella does not often fruit in this country save in the South or West of England and in sheltered positions in the Eastern and Midland Counties, and then only when allowed to grow into trees or large bushes; it, however, forms a capital stock for Plums, and if strong single stems are allowed to grow from the fence at intervals of about twelve feet, they may be budded or grafted with choice varieties of this popular fruit, and in a few years will form a most profitable and ornamental hedgerow.

The best time for planting is in November or early Spring, or it may be done in open weather at any time

during the Winter months, but in fairly moist weather successful plantings may be made as late as the middle or end of April. In planting plant firmly, placing the sets from six to nine inches apart according to size. After planting, about the time that growth commences, they should be cut down to eight or ten inches in height. It will bear almost any extent of clipping, and should be cut at least twice a year—about the end of July and in Winter or Spring whilst in a dormant state, and should be fairly trimmed the first year or two after planting to ensure a good bottom for a strong and thick fence, but it may be clipped in to form a fence no thicker than an ordinary garden wall, which will be found quite impenetrable. As the plants advance in age the branches become armed with long, sharp spines, which make the fence impenetrable to cattle, &c. Myrobella will therefore be found splendid for making new or improving old fences, and much superior to Whitethorn or any other fencing plant.

PLANT FOUR OR SIX TO THE YARD.

PLANTS FOR FENCING.

We annually raise many hundreds of thousands of the following useful fencing plants, and where large quantities are required shall at all times be pleased to furnish special quotations when requested. Our stocks of these are this season unusually fine, and will be found in the best possible condition for planting.

Whitethorn or Quick. Three years old, splendidly-grown sturdy stuff, height 2½ to 3 ft.

TERMS OF BUSINESS, &c.

■ All orders from unknown Correspondents must be accompanied by a sufficient Remittance or satisfactory References; and to save cost and trouble of Booking, a Remittance should in all cases be sent with Orders under 10s. in value.

DISCOUNTS.—All accounts are due net in three months, we however allow a discount of 1s. in the pound on all orders of 20s. and upwards when accompanied by a remittance, or when paid within fourteen days of date of invoice.

CHEQUES, MONEY ORDERS, AND POSTAL ORDERS.—Please make payable to DANIELS BROS., and cross "GURNEY & Co.," Norwich.

POSTAGE STAMPS AND COIN.—All letters containing postage stamps should be registered before being posted. The registration fee is now only 2d., and this ensures a safe delivery. Letters containing coin *must* be registered.

VEGETABLE SEEDS, CARRIAGE FREE TO ANY PART.—We send all Vegetable Seeds Post or Carriage Free to any part of the United Kingdom.

SEED POTATOES CARRIAGE FREE.—All general orders for Garden Seed (including Seed Potatoes), to the value of 10s. and upwards Free to any Railway Station on the GREAT EASTERN SYSTEM; and of the value of 20s. and upwards, Carriage Paid to any Railway Station or Steam Port in the United Kingdom.

FLOWER SEEDS.—All orders for Flower Seeds we send Post or Carriage Free to any part of the United Kingdom; and all orders of 10s. value and upwards we send free to any part of the world.

CARRIAGE OF ROSES, FRUIT TREES, MUSHROOM SPAWN, &c.—We do not undertake to pay carriage on general orders for Roses, Fruit Trees, Ornamental Shrubs and Plants, but continue to enclose extra plants free of charge to compensate for carriage; nor can we undertake to pay carriage of such horticultural requisites as Mushroom Spawn, Silver Sand, &c.

CO-OPERATION IN SENDING ORDERS.—Allotment holders, Cottagers, and others requiring but small quantities of Seeds and Seed Potatoes, by joining together in sending their orders, can have the advantage of our terms of Free Carriage, and will be allowed a special discount of ten per cent., taken in seeds, besides the usual discount of five per cent. for cash, thus: for every 20s. remitted 23s. worth of seeds may be ordered. No order can be recognised under these terms unless accompanied by at least one pound in cash.

IMPORTANT NOTICE.—We are extensive growers of several years' experience, and take the greatest possible care to supply only reliable seeds of the finest stocks and quality; we however wish it to be distinctly understood that we give no warranty express or implied as to description, quality, or productiveness, or any other matter relating to the seeds or plants we supply, and will not in any way be held responsible for any failure of crop.
